DETAILED ACTION

Claim Rejections - 35 USC § 112

- 1. The following is a quotation of the first paragraph of 35 U.S.C. 112:
- 2. The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.
- 3. Claims 1-3 and 5-45 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. Applicant's claim amendment have deleted the phrase "white-colored" in describing specific layers, such as the stainless steel coating layer in Claims 1 and 2 and the noble metal coating layer in Claim 3. Other Claims have been amended analogously. It is unclear what is the antecedent basis in the originally filed Specification for removing these limitations. Applicant has provided no citation to support the claims as now presented. Hence, rejection is appropriate.
- 4. The following is a quotation of the second paragraph of 35 U.S.C. 112:
- 5. The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 6. Claims 1-3 and 5-45 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

I. Regarding Claims 1-3 and 5-45, it is unclear what is meant by the phrase "white-colored." It is unclear whether this designation is limited by some standard of measurement of color.

II. Regarding Claim 16, it is unclear whether "a part" is necessarily less than the whole part of the stainless steel coating layer.

Response to Amendment

- I. Applicant's new Abstract obviates the objection to the Abstract of the Office Action mailed on 24 June 2003.
- II. Applicant's amendments obviate the claim objections of the OfficeAction mailed on 24 June 2003.
- III. In view of applicant's amendments and arguments, applicant traverses the section 112, second paragraph rejections of the Office Action mailed on 24 June 2003. Applicant's amendments and arguments obviate all of the section 112, second paragraph rejections of the Office Action mailed on 24 June 2003 except the rejection repeated above pertaining to the meaning of "white-colored." Applicant's response does not appear to directly address this rejection and so no further comments are warranted.
- IV. In view of applicant's amendments and arguments, applicant traverses the section 103 rejection over Tyler of the Office Action mailed on 24 June 2003. Rejection is withdrawn.

V. Claim 5 was incorrectly listed as rejected over Tyler. For the same reasons as Claim 2, Claim 5 avoids the prior art.

Conclusion

- 7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).
- 8. A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
